IFREEN SIDDIQUI

Backend Engineering Intern | Distributed Systems & APIs | VIT Pune (Batch-2028) | Pune, India
linkedin.com/in/ifreen | github.com/ifreen22 | ifreen-portfolio.vercel.app | +91 8369302730 | ifreensiddiqui22@gmail.com

SUMMARY

B.Tech CSE student (CGPA: 9.16) & Infosys STEM Scholar specializing in scalable backend systems, REST APIs, and database architecture. Proven experience building event-driven microservices, real-time data pipelines and optimized server-side logic in national hackathons.

EDUCATION

Vishwakarma Institute of Technology (VIT), Pune *Expected June 2028*
Bachelor of Technology in Computer Science Engineering (Artificial Intelligence) - CGPA: 9.16/10

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, JavaScript, SQL
- **Frontend:** HTML5, CSS3, React.js
- **Backend & APIS:** Node.js, Express.js, Flask, FastAPI, RESTful APIs, Webhooks, Microservices Architecture
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis (In-Memory Caching), Firebase Realtime DB
- **Automation & Data Ingestion:** Web Scraping (Playwright/BeautifulSoup), Asynchronous Workers, Event-Driven Queues
- **Core Systems:** Data Structures & Algorithms, Concurrency & Multithreading, Operating Systems, DBMS, Computer Networks
- **Cloud, DevOps & Tools:** Linux/Bash, Docker, Git/GitHub, Postman, AWS (EC2, S3), CI/CD Pipelines
- **Software Engineering:** System Design (Caching, Rate Limiting, Indexing), Concurrency, Debugging, Problem Solving
- **Soft Skills :** Teamwork, Communication, Leadership, Problem Solving, Analytical Thinking

SOFTWARE ENGINEERING VIRTUAL EXPERIENCE

Advanced Software Engineering Job Simulation - Walmart Global Tech (Forage Virtual Intern) *July 2026*

- Engineered relational database schemas and optimized complex SQL queries with indexing strategies to minimize transaction latency and prevent data anomalies.
- Performed practical data engineering and data-munging exercises to support large-scale backend workflows.

PROJECTS

Multi-Zone Civic Issue Intelligence System (Jaipur Cybrathon - Rank 17/250 among 3,000+ teams) *React.js | Node.js | Firebase | AI APIs*

- Engineered a full-stack AI-powered civic reporting platform to automate issue classification, department routing, and real-time complaint tracking across multiple municipal zones.
- Built a responsive administrative dashboard supporting live complaint monitoring, status updates, and role-based workflow management using Firebase's real-time database.

Workflow Automation System (Avinya 4.0 Hackathon - Selected for internship) *React.js | Firebase | REST APIs*

- Developed a role-based workflow automation platform enabling employee-manager approval processes through secure authentication and orchestration logic.
- Automated request classification, priority-based task routing, and built dashboards to track workflow progress and approval timelines.

CNN-Based Signature Verification System (Group Project) *Python | TensorFlow/Keras | OpenCV | Flask*

- Developed a CNN-based signature verification system with preprocessing, feature extraction, and confidence-scoring pipelines to classify signatures as accept, review, or reject.
- Integrated the trained model with a Flask backend to deliver real-time signature verification through an interactive web interface.

LEADERSHIP & CAMPUS EXPERIENCE

Executive Committee Member (Technical) - IEEE Student Branch, VIT Pune

- Led planning and execution of technical workshops, hackathons, and coding events with participation from 500+ students, managing sponsorships, logistics, and speaker coordination.
- Conducted AI and Web Development awareness sessions, mentoring students through interactive technical workshops.

ACHIEVEMENTS

- Infosys STEM Scholar - selected through an interview-based scholarship program.
- Ranked 17th among 250 finalists from 3,000+ participating teams at Jaipur Cybrathon National Hackathon.
- Top 25 Finalist, NariYukti Hackathon, for an AI-powered machine learning solution.
- Selected for an internship opportunity through the Avinya 4.0 Hackathon.

CERTIFICATIONS

- Advanced Software Engineering Job Simulation - Walmart Global Tech (Forage)
- PostgreSQL Database Design & Query Optimization
- Fundamentals of Machine Learning
- AI Tools Workshop Certification
